**Sudan, Khartoum**  
International Fairground

## WELCOME TO THE NEW SUDAN!

### Agriculture in SUDAN

Source: GTAI

- Agriculture represents about 40% of the Sudanese Gross Domestic Product (GDP) and 80-90% of non-oil-export sales.
- After Egypt, Sudan has the second largest irrigated area in Africa. At present, half of the agricultural production comes from irrigated areas however its potential is estimated up to 2.78 million hectares.
- Sudan is the third largest exporter of sugar and a large producer of cotton. Further main crops are sesame, peanuts, sugar cane, dates, citrus fruits, mango, coffee, tobacco and meat.
- There are high investment needs in all important business sectors such as Petroleum, Mining, Agriculture as well as Infrastructure. After the US sanctions were lifted - high attention value for providers of international machinery and spare parts.

### Review 2021 (third run of the event)

- 58 exhibitors, 4 countries, 1.028 trade visitors
- Opening ceremony in co-operation with the Sudanese Ministry for Agriculture and Forest, the Sudanese Ministry for Investment and the ambassador of Germany

### Expected for 2022

- more than 80 exhibitors from 8 countries, around 70 exhibitors from Sudan and more than 1.500 trade visitors

### Product categories

#### Agrofood / Packaging

- Agricultural Equipment
- Agricultural Products
- Agrochemicals
- Animal Farming & Breeding
- Animal feed
- Beverage production
- Catering Equipment
- Cooling Systems and Cooling
- Dairy Technology
- Deep Freezing Technology
- Fertilizers
- Food Processing Technology
- Grain Processing Technology
- Greenhouses

- Harvesters
- Ingredients
- Irrigation Systems & Technology
- Manuring Technology
- Meat Processing Technology
- Packaging Technology
- Plant Cultivation
- Plastics Product & Technology
- Poultry Equipment
- Seeds
- Slaughterhouse Equipment
- Storage Technology
- Technology for Bakeries
- Tractors and Vehicles
- Solar Energy
- Renewable Energy

#### Water Systems

- Water Treatment
- Water Extraction
- Water Supply
- Water Technology
- Environment
- Pumps
- Installation Material
- Drainage
- Laboratory Equipment
- Tubes
- Jointing Equipment
- Sewage Water Technology
- Drilling Technology
- Valves and Fittings
